A RESOLUTION

to allow credit in the Tennessee Consolidated Retirement System for certain periods of military service rendered in the armed forces of the United States in accordance with T.C.A. § 8-34-605

WHEREAS, T.C.A. § 8-34-605 authorizes a political subdivision participating in the Tennessee Consolidated Retirement System ("the System") to allow its employees to establish retirement credit for certain military service rendered in the armed forces of the United States;

WHEREAS, said Section allows any such employee who is a member or retired member of the System, who served in the armed forces of the United States at any time from 10/15/40 through 5/7/75, to establish retirement credit for such military service on the basis of 1 day of creditable service for each 2 days of military service rendered. The member must pay the employee contributions to establish the service based upon a contribution rate of 9% which is applied to the member's earnable compensation at the time of the claim, or if not in service at the time of the claim, the member's earnable compensation at termination of employment; and

WHEREAS, said Section also allows any such member who establishes the above military service to establish an additional 6 months of retirement credit for any military service rendered in the armed forces of the United States during the periods specified above for which the employee did not receive credit in the System. To receive such additional credit, the member must pay employee contributions for the service based upon a contribution rate of 12% which is applied to the member's earnable compensation at the time of the claim, or if not in service at the time of the claim, the member's earnable compensation at termination of employment; and

WHEREAS, Section 8-34-605 further allows any such member who served in the armed forces of the United States during a period of armed conflict, as defined in said Section, to establish retirement credit for such service without charge; and

WHEREAS, credit for any of the above military service is conditioned upon the following: (1) the credit cannot be established in any other retirement system; (2) the member was honorably discharged from such military service; (3) the credit is granted conditionally upon the member becoming vested; prior to vesting, the credit may not be used to establish any rights under the System; and (4) the total amount of credit granted for such military service cannot exceed an aggregate of 4 years.
